Subject: **REMINDER - 2025 Global Quality P4P Program – Manifest MedEx (MX) Connectivity**

We would like to remind you about the 2025 Global Quality P4P (GQ P4P) measure requirements for Manifest MedEx (MX) Connectivity.

This is the fourth year of the Manifest MX Connectivity measure. We encourage providers to participate in Manifest MX to help IEHP increase PCP connections, with an aim to improve patient care and coordination.

The five (5) milestones included in the 2025 MX Connectivity measure are as follows:

**For PCPs without an established
MX Connection*:**

- **Milestone 1:** Get Connected to Manifest MedEx!

**For PCPs with an established
MX Connection*:**

- **Milestone 2:** Stay Connected to MX
- **Milestone 3:** Improve Data Quality - Reporting Minimum Data Requirements
- **Milestone 4:** Improve Data Quality - Reporting Clinical Data Elements
- **Milestone 5:** Improve Data Quality - Behavioral Health Data Elements

Meeting selected milestones will add additional PMPM to your overall GQ P4P Quality PMPM rate!*

- Milestone 1: This Milestone is monitoring only.

Note: Providers will be required to be connected to MX to be eligible for Milestones 2-4 incentive.

- **Milestones 2- 4: Providers can earn an additional \$0.25 Quality PMPM per eligible Milestone.**
- Milestone 5: Monitoring only.

**Providers eligible for Milestone 1 cannot participate in milestones 2-5, cited above, for the 2025 performance year. Providers who established their MX connection in the 2023 or 2024 performance years are eligible for milestones 2-5.*

Signing Up with Manifest MedEx:

Providers who have not yet connected with Manifest MX will need to get connected during the 2025 performance year to qualify for paid Milestones in the 2026 performance year. Please refer to the connectivity details below.

Manifest MedEx Connectivity

Measure Description:
Providers are encouraged to continue utilizing the Manifest MedEx (MX) Connectivity platform to help improve data quality efforts.

**Measure Requirements:**
