

COMING SOON!

IEHP

PROVIDER QUALITY APP

WHEN

August 18, 2025

LOCATION

IEHP Provider Portal

IEHP has developed a new application, the Provider Quality App, to support Global Quality P4P Primary Care Physicians (PCPs), which will soon be available on the IEHP Provider Portal.

This new app is designed to engage and inform Providers through:

- Global Quality P4P Performance and Quality Measure Dashboards
- Insights into opportunities for improving quality of care for IEHP Members
- Custom and Measure-based Member rosters

This new app is meant to complement the existing Global Quality P4P reports and Member Rosters to help Providers get the most out of the P4P program. Once live you can find the Application by navigating to Reports → Provider Quality App

Stay tuned for more information that will be sent out in the upcoming week
