

2026 Promising Practices Series

Together Towards a Future Free from HPV-Related Cancers

The American Cancer Society (ACS) and the ACS National HPV Vaccination Roundtable (HPVRT) are inviting health care professionals to this dynamic, no-cost educational series created to support the sharing of effective strategies and real-world solutions for strengthening HPV vaccination and cervical cancer elimination initiatives within healthcare systems, public health initiatives, and community organizations. Each session convenes healthcare providers, public health practitioners, community partners, and leading experts to examine promising practices, share strategies, and highlight real-world successes.

Join us for this informative webinar series!

Learning Objectives

Upon completion of this program, participants should be able to:

1. Discuss how to implement evidence-based strategies for on-time vaccination, effective provider-patient communication, approaches to vaccine hesitancy, quality improvement, and cervical cancer elimination.
2. Summarize how to address barriers to HPV vaccination, including parental vaccine hesitancy, concerns about the efficacy/safety, and clinical workflows.
3. Describe how to promote collaboration between healthcare providers, public health practitioners, and community organizations.
