IEHP | Targeted Rate Increase (TRI)

To: Medi-Cal Delegated Providers & IPA Network
From: IEHP – Finance Department
Date: November 19, 2026
Subject: **Targeted Rate Increase (TRI) – Transition of Payment Responsibility**

Effective January 1, 2027, Independent Physician Associations (IPAs) will assume responsibility for Targeted Rate Increase (TRI) payments to their contracted delegated providers for eligible services rendered on or after this date.

IEHP will discontinue standalone Prop 56 - Physician Services supplemental payments, as the Targeted Rate Increase (TRI) has incorporated them into the base rate.

Important

This change applies only to the sunset of Proposition 56 - Physician Services and delegation of TRI payment responsibility.

All other Proposition 56 programs will continue under their existing payment arrangements: *Adverse Childhood Experiences Screening (ACES) Services, Developmental Screening Services, Family Planning Services, Ground Emergency Medical Transport (GEMT) Payment, Private Services – HYDE.*

IEHP will remain responsible for applicable TRI and Proposition 56 - Physician Services payments for eligible services rendered through December 31, 2026, including payments scheduled for disbursement in 2027, until all 2026 payments have been fulfilled.

IPAs and delegated providers are encouraged to review their payment arrangements in preparation for the transition to support accurate and timely reimbursement.

Additional Resources

Providers are encouraged to review the **TRI Supplemental Payment Schedule for 2026 and 2027** on the IEHP TRI webpage for anticipated payment dates.

TRI Resources and a link to the DHCS TRI fee schedule are available on IEHP's Provider website: providerservices.iehp.org > Resources > Resources for Providers > Claims > Targeted Rate Increase.

If you have any questions, please contact the IEHP Provider Call Center at (909) 890-2054, (866) 223-4347, or email ProviderServices@iehp.org.
