IEHP DualChoice (HMO D-SNP) | 2024 *List of Covered Drugs (Formulary)*

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs – and over-the-counter (OTC) drugs and non-drug products – are covered by IEHP DualChoice, a Medicare Medi-Cal Plan. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by IEHP DualChoice.

Our contact information, along with the date we last updated the Drug List, appears on the front and back cover pages. Key terms and their definitions appear in the last chapter of the *Evidence of Coverage*.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all the FAQ to learn more or look for a question and answer.

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the *List of Covered Drugs* that starts on page 12 are the drugs covered by IEHP DualChoice (HMO D-SNP). The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.” The prescription drugs included on this List of Covered Drugs are covered by IEHP DualChoice. Other drugs, such as some over-the-counter (OTC) medications and certain vitamins, may be covered by Medi-Cal Rx. Please visit the Medi-Cal Rx website (www.medi-calrx.dhcs.ca.gov) for more information. You can also call the Medi-Cal Rx Customer Service Center at 800-977-2273. Please bring your Medi-Cal Beneficiary Identification Card (BIC) when getting prescriptions through Medi-Cal Rx.

- IEHP DualChoice will cover all medically necessary drugs on the Drug List if:
 - your doctor or other prescriber says you need them to get better or stay healthy,
 - IEHP DualChoice agrees that the drug is medically necessary for you, **and**
 - you fill the prescription at a IEHP DualChoice network pharmacy.
- In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.

You can also find an up-to-date list of drugs that we cover on our website at www.iehp.org or call Member Services at the numbers listed at the bottom of this page.

B2. Does the Drug List ever change?

Yes, and IEHP DualChoice must follow Medicare and Medi-Cal rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from IEHP DualChoice before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check IEHP DualChoice's up-to-date Drug List online at www.iehp.org.
- You can also call Member Services at the numbers listed at the bottom of this page to check the current Drug List.

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available.** Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug, and add the new generic drug, but your cost for the new drug will remain \$0. When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to questions B10-B12 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know. Please contact the prescribing doctor after you receive a letter.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug that is not new to the market **and**
 - Replace a brand name drug currently on the Drug List **or**
 - Change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 31-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- If there is a similar drug on the Drug List you can take instead or
- Whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10-B12.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from IEHP DualChoice before you fill your prescription. Prior authorization is different from a referral. IEHP DualChoice may not cover the drug if you don't get prior authorization.
- **Quantity limits:** Sometimes IEHP DualChoice limits the amount of a drug you can get.
- **Step therapy:** Sometimes IEHP DualChoice requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables beginning on page 14. You can also get more information by visiting our website at www.iehp.org. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Refer to questions B10-B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table in the List of Drugs by Medical Condition on page 14 has a column labeled "Necessary actions, restrictions, or limits on use."

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

B6. What happens if IEHP DualChoice changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically, **or**
- You can search by medical condition.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it in the index that begins on page 136. Look in the index and find your drug. Next to your drug, you will see the page number where you can find the coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

To search **by medical condition**, find the section labeled “List of Drugs by Medical Condition” on page 12. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

B8. What if the drug I want to take is not on the Drug List?

If you don't find your drug on the Drug List, call Member Services at the numbers listed at the bottom of this page and ask about it. If you learn that IEHP DualChoice will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask IEHP DualChoice to make an exception to cover your drug. Refer to questions B10-B12 for more information about exceptions.

B9. What if I am a new IEHP DualChoice member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 31-day supply of your drug during the first 90 days you are a member of IEHP DualChoice. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 31 days of medication.

We will cover a 31-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- our plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by IEHP DualChoice, **or**
- you are taking a drug that is part of a step therapy restriction

If you are taking a drug that IEHP DualChoice does not consider to be a Part D drug, you have the right to get a one-time, 72-hour supply of the drug.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new IEHP DualChoice member.
- This is in addition to the temporary supply during the first 90 days you are a member of IEHP DualChoice.
- As a new member in our plan or continuing member who was affected by a formulary change from one year to the next, you may be taking drugs that are not on our formulary. Or, you may be taking drugs that are on our formulary that are hard for you to get. For example, you may need our approval before you can get your drug. Either way, talk to your doctor. He or she can help you choose the right course of action. This could be changing to a drug we do cover or seeking a formulary exception so that we will cover the drug. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.
- For each of your drugs that is not on our formulary or is hard for you to get, we will cover a temporary 31-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 31-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.
- If you are a resident of a long-term care facility, we will cover your prescription refill until we have provided you with a 31-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days of your membership. If you need a drug that is not on our formulary or it is hard for you to get, but you are past the first 90 days of membership in our

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you ask for a formulary exception.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask IEHP DualChoice to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, IEHP DualChoice may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can I ask for an exception?

To ask for an exception, call IEHP DualChoice Member Services. A Member Services representative will work with you and your provider to help you ask for an exception. You can also read Chapter 9 of the *Evidence of Coverage (What to do if you have a problem or complaint [coverage decisions, appeals, complaints])* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours. For information or instructions about how and where IEHP DualChoice members **can send** their statement, please contact IEHP DualChoice Member Service.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

IEHP DualChoice covers both brand name drugs and generic drugs.

B14. What are OTC drugs?

OTC stands for "over-the-counter". IEHP DualChoice covers some OTC drugs when they are written as prescriptions by your provider.

You can read the IEHP DualChoice Drug List to find out what OTC drugs are covered.

B15. Does IEHP DualChoice cover non-drug OTC products?

IEHP DualChoice covers some non-drug OTC products when they are written as prescriptions by your provider.

Examples of non-drug OTC products include alcohol pads.

You can read the IEHP DualChoice Drug List to find out what non-drug OTC products are covered.

B16. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B17. What is my copay?

IEHP DualChoice members have \$0 copay for prescription and OTC drugs and non-drug products if the member follows the plan's rules. Refer to questions B14 and B15 for more information about OTC drugs and non-drug products.

Tiers are groups of drugs on our Drug List.

Our Plan uses a single tier drug list which includes generic, brand and biosimilar drugs.

- Tier 1 drugs have \$0 copay*.

* Because you qualify for "Extra Help", you pay nothing for your prescription drug costs as long as you follow our rules. If you no longer qualify for Extra Help, your drug costs may change.

If you have questions, call Member Services at the numbers listed at the bottom of this page.

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

C. Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by IEHP DualChoice. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 137. The index alphabetically lists all drugs covered by IEHP DualChoice.

AGE: Age Limit. For certain drugs, IEHP DualChoice requires a Prior Authorization if over the specific age limit.

NDS: Non-Extended Day Supply. This is a drug that is dispensed up to a 31-day supply.

PA: Prior Authorization. IEHP DualChoice requires you or your physician to get approval from us first before filling a certain drug. This extra step is called “prior authorization.” If you don't get approval, IEHP DualChoice may not cover the drug.

PA NSO: Prior Authorization for New Starts Only. IEHP DualChoice requires you or your physician to get approval from us first before filling a certain drug if you have not taken this drug before. If you don't get approval, IEHP DualChoice may not cover the drug.

PA BvD: Part B vs D Prior Authorization. This is a drug that has a special “PA” requirement. It may be covered under one or two benefit programs: 1) Medicare Part B, and/or 2) Medicare Part D. This depends on many factors. Your physician may need to give us more details about the use and setting of the drug.

QL: Quantity Limit. For certain drugs, IEHP DualChoice limits the amount of the drug that it will cover. This may be in addition to a standard one month or three-month supply.

ST: Step Therapy. In some cases, IEHP DualChoice requires you to first try certain drugs to treat your medical condition. This is the process before we will cover another drug for that condition. For example, either Drug A or Drug B may treat your medical condition. IEHP DualChoice may not cover Drug B unless you try Drug A first. If Drug A does not work for you, IEHP DualChoice will then cover Drug B.

If you have questions, please call IEHP DualChoice at 1-877-273-IEHP (4347), 8am-8pm (PST), 7 days a week, including holidays. TTY users should call 1-800-718-4347. The call is free. **For more information**, visit www.iehp.org.

D. List of Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.
