From:	Provider Relations
Date:	May 5, 2023
Subject:	**New COVID- 19 Vaccine Status Alerts Added to the Provider Portal**

The federal Covid-19 Public Health Emergency is ending, and vaccination remains our best defense against the COVID-19 virus. We have added **additional information to our COVID-19 Vaccine Roster and a special alert** about Members' vaccine status.
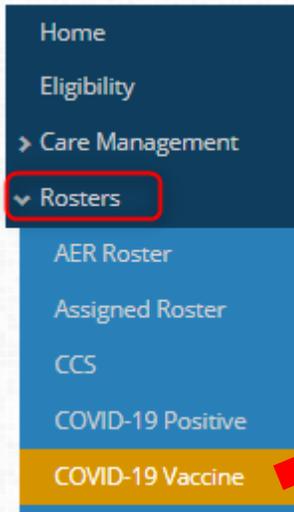

In the **Rosters** on the secure Provider Portal, scroll to **COVID-19 Vaccine** to see a complete list of Members and their current vaccination status.

**COVID-19 Vaccinated/Unvaccinated Rosters**

Includes Members 6 months and older Only.

Roster data is subject to data lags and is the most current information available to the plan.

To better utilize the COVID-19 vaccination information provided in this roster, please refer to this key:

- **Covid-19 Vaccination Incomplete:** Member has not completed Covid-19 vaccine series
- **Booster Recommended:** Per CDC guidelines, a booster is recommended at this time
- **Booster Completed:** Fully vaccinated/boosted per current CDC guidelines
- **Covid-19 Vaccination Complete:** Primary series complete, not yet eligible for a booster

When verifying Member eligibility, an alert will appear advising whether a COVID-19 vaccination or booster is needed. This presents an opportunity to administer the Covid-19 vaccine or refer the Member to a vaccine site. Vaccines.gov provides a complete list of Covid-19 vaccination locations.
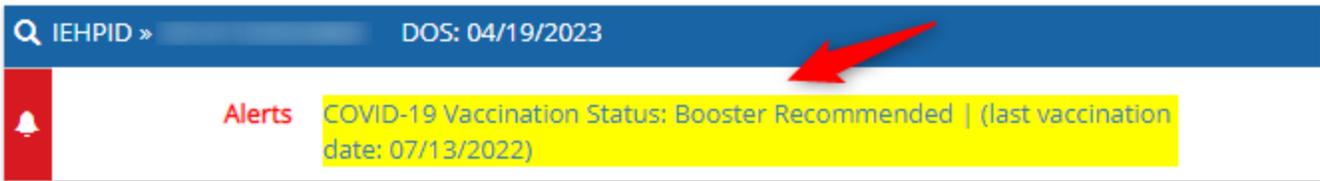

Thank you for partnering with us to provide optimal care to our Members.
