BACKGROUND

The EDI 835 transaction set is called Health Care Claim Payment and Remittance Advice. It has been specified by HIPAA 5010 requirements for the electronic transmission of healthcare payment and benefit information. The EDI 835 is used primarily by healthcare insurance plans to make payments to healthcare providers, to provide Explanations of Benefits (EOBs), or both. When a healthcare service provider submits an 837 Health Care Claim, the insurance plan uses the 835 to detail the payment to that claim, including:

- What charges were paid, reduced or denied
- Other Health Coverage (OHC), if member has more than one insurance coverage
- Whether there was a deductible, co-insurance, co-pay, etc.
- Any bundling or splitting of claims or line items
- How the payment was made, such as through a clearinghouse

To enroll to receive 835s/ERAs through IEHP, please review and complete Attachment 16 IEHP ERA (835) Enrollment Form and submit the signed ERA Form to edispecialist@iehp.org.

INTENDED USE

The Transaction Instruction component of this companion guide must be used in conjunction with an associated ASC X12 Implementation Guide. The instructions in this companion guide are not intended to be stand-alone requirement documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guides and is in conformance with ASC X12's Fair Use and Copyright statement

The below table represent only those field that IEHP requires a specific value in or has guidance as to what that value should be. The table does not represent all the fields necessary for a successful transaction. The TR3 should be reviewed for that information.

Provider Information- Please fill out completely

Provider Name - Complete legal name of institution, corporate entity, practice, individual name or DBA, if applicable

Provider Physical Address – The number and street where a person or organization can be found

City - City associated with provider address field

State - ISO 3166-2 two character code associated with the state

Zip Code/Postal Code – System of postal-zone codes

Provider Identifiers

Provider Federal Tax Identification Number (TIN) or Employer Identification Number (EIN) – A TIN or EIN is used to identify business entity.

National Provider Identifier (NPI) - A Health Insurance Portability and Accountability Act (HIPAA) Administrative Simplification Standard. The NPI is a unique identification number for covered healthcare providers. Covered healthcare providers and all health plans and healthcare clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA. The HPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions.

Other Identifiers

Trading Partner ID - The provider's submitter ID assigned by the health plan or the provider's clearinghouse or vendor
